**Excellency,**

The news about your contraction with Coronavirus made me sorrow and concerned.

On behalf of Staff of the APA Secretariat, myself and APA member parliaments I wish to thank you for your untiring and constructive efforts against this dangerous disease in Iran and around the globe and wish you immediate recovery and health.

In this regard, I am obliged to also express my gratitude to the government of Iran specially to the medical community for their struggle in alleviating the sufferings of Iranian people.

I am confident that through unity and national as well as international solidarity we will win this worldwide battle soon.
